Storage Velocity™ - Practice Velocity's Image Archiving Solution

Stop worrying about the trials of archiving paper documents with Storage Velocity™

Storage Velocity places control of your records right at your desktop so that you can access them when and where you need them. With Storage Velocity, your scanned images of your medical records are archived with a wide array of indexing and search options that let you quickly and efficiently retrieve digital documents. The architecture of Storage Velocity enables you to archive multiple types of documents.

Practice Velocity's image archiving solution - Storage Velocity provides the following benefits:

- √ Immediately start archiving documents vital to your business
- √ Configurable to your document descriptions
- √ Self indexing and document organization
- √ Easy to use archival and retrieval solution
- √ Secure connection and interface
- √ Print, e-mail and fax archived documents
- √ No administration and support costs
- √ Reduction in "hard paper" storage expenses
- √ No lost time in searching for and pulling charts for patients
- √ Immediate return on investment
- √ Automatically link archived documents with new patient records created with Practice Velocity's Coding Velocity product — The Physician's Rx for Accelerated Coding with Accuracy
- √ Automatically link new "digital" voice transcriptions with Practice Velocity's Transcription Velocity product — Web-based dictation and digital transcription

24/7 Access to YOUR Information

Velocity is what it is all about; by using your standard browser, you can access your archived digital records in the blink of an eye - twenty-four hours a day, seven days a week. From any computer, connect to the Internet and simply log in at Practice Velocity's secure web site and enter your search criteria. You will be able to select the document you wish to retrieve and view, download or print it from your browser. It's that fast!

The Storage Velocity solution allows you to determine how your documents are archived and indexed. You choose how you will organize and index documents — by patient name and ID number, by batch, by document type, by visit date and so on. The possibilities are endless. Storage Velocity was designed with you in mind and has no artificial constraints that you must work within. With Storage Velocity, you assign the document type based on your standard documents and forms. You select the retrieval criteria for archived documents and you select who and how documents are accessed.

Using Practice Velocity's PiVoT Station™, documents are indexed at the time of scanning and turned into digital images that are immediately available for your retrieval. From the Practice Velocity web site, you customize the forms and documents that you use in your practice. New document and form types can be added online and they can be archived from any location immediately.

There has never been an easier, more convenient way for you to archive, manage and retrieve your digital records than by using Practice Velocity's Storage Velocity solution.

Storage Velocity! It's that simple. It's that fast.

About Practice Velocity LLC

Created by doctors for doctors, Practice Velocity provides solutions that help protect and increase the revenues and security of urgent care centers.
